PREFACE

The present volume *i.e.* Part III (A) is in continuation of the previous volumes of the Catalogue of Sanskrit and Prakrit Manuscripts preserved in the Rajasthan Oriental Research Institute brought out with the financial aid given by the Ministry of Education, Govt. of India, New Delhi. For the same, we express our deep gratitude to the Ministry.

Previous volumes have appeared in the "Rajasthan Puratan Granthmala", the publication series of the Institute, as no's. 71, 77, 81 and 82. This volume is no. 85

This volume covers descriptions of 3,768 Sanskrit and Prakrit works, preserved in the Jodhpur Collection, occurring between accession No's. 10,101 and 18,237. These works are related to the first seven out of the twenty-five subjects prescribed for classification in the instructions issued by the Ministry of Education. The rest would form the contents of volume III (B). - the sixth instalment in the catalogue series.

The style and pattern is the same as adopted in the previous volumes. Extracts from important manuscripts have been given at the end rendering it still more useful to the scholars.

I am thankful to Shree Gopal Narayan Bahura, M. A., Deputy Director of the Institute, who has rendered great cooperation and assistance in bringing out the volume. Shree Laxminarayan Goswami and others who did the work of preparing identity cards, filling in details, preparing press-copies of the works and going through the proofs etc. are also to be thanked.

Shree Hari Prasad Pareek of the Sadhana Press deserves thanks for the prompt and careful printing of this part of the catalogue.

For mistakes and errors, that might have crept in, I owe an apology to the readers. However, they shall be benefitted when they come across the details of several manuscripts based on known and unknown works contained in the volume, in hand.

A SHORT INTRODUCTION
TO
THE RAJASTHAN ORIENTAL RESEARCH INSTITUTE
JODHPUR

The Government of Rajasthan established the Rajasthan Oriental Research Institute in the year 1951 with the following aims and objects :—

1. to explore and bring to light the ancient literature of Rajasthan and adjacent areas as available in Sanskrit, Prakrit, Apabhramsa, Rajasthani, Gujarati, Vraj, Hindi and other regional languages,
2. to collect, preserve, compile, and carry out survey of original source material of ancient history and culture of Rajasthan i.e. architecture, paintings, art, inscriptions, copper-plates, coins and documens etc.,
3. to collect old manuscripts and prepare their pen-copies, microfilmed and photostat copies and sound records etc.
4. to organise a well equipped reference library of books useful and indispensable for research work in the field of Indology, and
5. to investigate, record, interpret and present clearly
   (i) the varied folk-literature throwing light on public life in Rajasthan,
   (ii) devotional and canonical literature embodied in the lyrics of various religious sects, and
   (iii) all sorts of material related to the social, cultural and religious customs and secular practices.

When independence came to India an opening was provided in its wake for the preservation of a truly great heritage. The task was

not an ordinary one, and, howsoever limited in resources, the Institute has, within a short span of 16 years collected and preserved about 83,000 manuscripts, written in Sanskrit, Prakrit, Aprabhramsa, Hindi, Old Rajasthani and Vraj etc. They deal with a variety of subjects including works on the Vedas, Brahmanas, Upanishads. Vedanta, Philosophy, Astrology, Logic, Grammar, Mimansa, Kavya, Nataka, Champu Classical metres, Katha, Akhyayika, Kamasutra, Ayurveda, History etc., etc. Some of them are very rare dating back to the 11th C. Some of these manuscripts are of exceptional exhibitory value being extensively illustrated representing certain broad characteristics of the various Rajput Schools of painting that flourished in the ancient and medieval times. Large amount, skill, time and patience would be required to bring out descriptive catalogues and reproductions of these illustrated works.

There is a reference library also, containing about 11,500 rare and valuable volumes on various subjects.

Equal attention is paid to the closely allied aspects of preservation and publication. Under the series styled the "Rajasthan Puratana Granthmala" the Institute has so far published 79 works and a good many are under print. The series can take the pride of co-operation and contribution of well-known and veteran scholars of the country like the late M.M. Pt. Giridhara Sharma Chaturvedi, late Bhatta Mathura Nathji, late Pt. Kedar Nath Jyotirvid, Prof. H.D. Velankar, Prof. Dashratha Sharma, Prof. R.C. Parikh, Prof. K.B. Vyas, Prof. M.C. Modi, Pandit Bechar Dasji Doshi and others who have edited a number of works brought out by the Institute. These works have been highly appreciated by eminent scholars in the country and abroad in that they make a definite advance in the exploring of the hitherto unknown material.

A scheme for the preservation and publication of important manuscripts in the Jain Grantha Bhandars at Jaisalmer was taken up by the Institute. Both the late President and the late Prime Minister, Pandit Nehru, after visiting Jaisalmer, had expressed their wishes for the preservation and proper study of these manuscripts. Consequently, the Government of Rajasthan took up the work through the Rajasthan

Oriental Research Institute. In these Bhandars some of the manuscripts on paper belong even to the 12th and 13th centuries. A good number of palm-leaf manuscripts belonging to still earlier centuries is the main attraction of this treasure. In antiquity, they perhaps surpass all similar collections in India, and it is said that we have, at present, only a remnant of what was, at one time, a still more splendid collection. The first European to have taken notice of these Bhandars was Col. James Tod — the pioneer annalist of Rajasthan. Dr. Buhler and Dr. Jacobi, afterwards, examined, took notices of, and copied out certain important manuscripts of these Bhandars. After a long gap of time, work on these manuscripts has been resumed by this Institute. Photo-stat copies of 258 manuscripts comprising 336 works in 27,297 leaves and 7,862 plates have been prepared and preserved. Publication of certain rare manuscripts, available in these Bhandars, such as a complete copy of Bhatta Somesvara's commentary on the 'Kavya Prakasha' of Mammata, a work written on palm-leaf and dated 1158 A.D., not much later than the date of composition of the original work between 1050-1100 A.D., the 'Cakrapani-vijaya Maha-kavya' by Laxmidhara Bhatt, the 'S'abdaratnapradipa', 'Karakasambandhodyota', 'Balsiksha Vyakarana' by Thakkur Sangram Singh and the 'Vrittajatisamuchchaya' of Virhanka, 'Kavidarpana', 'Padartharatnamanjusa' and 'Tripura Bharati Laghustava tika' etc., goes to the credit of the Institute. The 'Cakrapani-vijaya-mahakavya' is the only palm-leaf copy of the work available now. It is a love-tale. The 'Sabdaratnapradipa', as the title suggests, is a work of lexical character, containing several words that yield more than one meaning. The 'Karakasambandhodyota' is a monograph on the Katantra school of Sanskrit grammar. The 'Vrittajatisamuchchaya' is a work on Prakrit and Sanskrit metres, written by Virhanka about 7th century A.D. The 'Kavidarpana', represents an invaluable phase in the history of middle Indo-Aryan prosodical tradition. Composed about the 14th century A.D., the 'Padartharatna manjusa' of Krishna Bhatta is an important manual of the Vaisheshika school of Philosophy. The 'Tripura Bharati Laghustava' is a devotional poem by Laghuacharya dedicated to Goddess Tripura. An excellent edition of the 'Vasavadatta' a romance by Subandhu has just come out. Many

other similar works from the Jaisalmer collection are also under publication, which are pledged to add a lot to our information about the medieval Sanskrit, Prakrit and allied literature.

Seven branch offices of the Institute have been established at Jaipur, Kotah, Alwar, Tonk, Udaipur, Bikaner and Chittorgarh. The Government have handed over all the manuscripts lying in the various libraries and museums to the Institute for preservation and proper use. Large number of manuscripts have been received by donation, and in this respect the Bikaner branch has made a history, where an attractive number of about 21,000 valuable Mss. has been received. Branch offices at Jaipur, Alwar and Chittorgarh have also gained by such donations. The survey work is proceeding in accordance with the prescribed proformas with a view to derive maximum information from the collections owned by private institutions and individuals. The total number of Mss. preserved in these branches is nearing about 55,000. These collections abound with hundreds of extensively illustrated manuscripts comprising thousands of genuine miniature paintings possessed with brilliance, colour sheme and forth-right expression, sanctity of theme and poetic fervour—the chief characteristic of the various schools of painting which developed in Rajasthan during the ancient and medieval periods. The collection of illustrated manuscripts in the Saraswati Bhandar of Udaipur is unique in that the Maharanas of Udaipur patronised the art of painting by getting illustrated manuscripts prepared on the classical and poetic themes.. The Institute is alive to the need of bringing out valuable publications based on the rare and rich material preserved in these collections.

The Institute occupies a prominent place among the other sister Institutes in the country and abroad. All such centres of Oriental learning and culture have to play a vital role in the bringing out of the Asian heritage, in general.
